Sintelix Pty Ltd

Sintelix Pty Ltd was formed in Australia in 2017 as a world-leading supplier of analytical software for unstructured data. Sintelix was originally developed by Semantic Sciences, an Australian company formed in 2008. Having experienced rapid growth, Sintelix is now used by intelligence professionals throughout the world. Sintelix is owned by a charitable family trust with a high value on doing business rightly, increasing happiness and improving wellbeing.
